## PROSPECTUS OF "THE CRAYON" For 1859.

On the First day of January next, THE CRAYON will commence its fifth year and its Sixth Volume, with renewed assurances and prospects of a better and more useful future, and with a subscription list greatly extended.

In devoting THE CRAYON to Art, to artists and their varied interests, we have but performed the very object for which it was started. From the professors of every branch of Art, viz, Painters, Architects, and Sculptors, we have received hearty support, countenance and aid, and it has been at their suggestion that THE CRAYON has appealed to the public generally by opening its columns to other subjects of interest, namely, those of Literature and Science. Our Magazine now claims the attention and support of all classes of our community from the varied and general character of the subjects treated of in its columns. This course will be continued, being considered the most appropriate for an Art-Journal in this country. The number of our contributors having increased, our readers may consequently look for variety of subject and versatility of treatment
